Dr. Marcus Im Sio Kei Macao Polytechnic Institute, Rua de Luis Gonzaga Gomes Macao China

16 December 2013

Dear Dr Im

Extension of Academic Accreditation: Macao Polytechnic Institute

I am pleased to inform you that following the Monitoring Visit on 3 & 4 December 2013 the Academic Accreditation Committee has accepted your request for an extension of accreditation and therefore your programmes have been accredited as per the table in Attachment 1.

It should be noted that the accreditation of the programmes are subject to the conditions set out in the last decision letter dated 19 December 2011.

Your next full accreditation visit will therefore take place in the 2015/2016 academic year.

The list of accredited programmes held by the IET and the Engineering Council UK on the Internet will be updated to reflect the decision. The IET's list is available on www.theiet.org by clicking on 'Academics'.

Thank you for your co-operation.

Yours sincerely

Marilyn Comparetto

Academic Accreditation Coordinator

Full details of Programme Accreditation

Other Useful Information:

All graduates are eligible for membership of the IET.

The IET and Engineering Council UK databases will be updated to reflect the accreditation status of all programmes listed in this document.

The IET's list is available on our website at http://www.theiet.org/academics/accreditation/synopsis-accred-list.cfm

As a Department with accredited programmes you are entitled to make use of the IET's 'Accredited Programme' logo and this is available upon request from accreditation@theiet.org

Reference to IET accreditation should carry the full statement of the level and category of accreditation that was awarded by the IET. It should be noted that the misuse of the above statements and the IET accreditation logo may lead to withdrawal of IET accreditation.

You are also entitled to make use of the Engineering Council accredited programme logo. The logo and instructions for its use are available for downloading at: http://www.engc.org.uk/education--skills/accreditation/accredited-degree-logo

You are also eligible to apply for a EUR-ACE label for your IET accredited programmes. This is a European quality label for engineering programmes at Bachelors and Masters level that is awarded by the European Network for Accreditation of Engineering Education (ENAEE) via authorised agencies, of which the Engineering Council is one. There is a fee for the award of the label, and details are available on request from nlubojacky@engc.org.uk

Your IET accredited degree is automatically recognised by the signatories of international accords where the Engineering Council is a signatory. (e.g. http://www.washingtonaccord.org/).
